TRANSFER RELEASE FILM FOR LASER AND SILK SCREEN PRINTING

HCS100/1C-DPH, a one sided matt and one sided release coated, 100 micron hot-peel transfer release film with good dimensional stability and perfect matt finish suitable for digital laser printing with Xerox / Ricoh. After printing the colours with laser printing, print a hot-melt layer with silk screen printing.

PROPERTIES

Product reference	HCS100/1C-DPH
Carrier	100 micron polyester
Stability	Thermo stabilised with anti-static treatment
Coating	One sided matt and one sided release coated
Compatible inks	Digital laser printing with Xerox/ Ricoh
Printing side	Indicated on the film
Ink release	Light/medium peel force
Peel	Hot-peel
Advantages	Highly stable: because of anti-static and thermo stability treatment Easy transfer positioning: because of semi-transparency of the polyester
Packaging	Sheets – 32 x 46 cm (other sizes and rolls on request) 200 sheets per packaging
Storage	In dry environment at room temperature Recommended processing-time: 6 months after delivery
